DEPARTMENT OF HIGHWAYS

NOTICE TO CONTRACTORS

Nelson-Creston Electoral District

Bridge Project 939—Taghum Bridge, Southern Trans-Provincial Highway 3A, Contract 1: Substructure.

SEALED TENDERS, marked "Tender for Bridge Project 939—Taghum Bridge Contract 1," will be received by the Department of Highways at the Parliament Buildings, Victoria, B.C., up to 2 p.m. on Wednesday the 30th day of July 1975, and opened in public at that time and date. Tenders must be delivered only to Room 237, Douglas Building, Victoria, B.C., which is open from 8 a.m. to 4 p.m., Monday to Friday, except holidays.

The work to be carried out under this contract consists of the construction of one reinforced-concrete pier and two reinforced-concrete abutments, both of which are founded on steel H piles.

Plans, specifications, and conditions of tender may be obtained from the Provincial Government Plan Viewing Room, 108, 501 West 12th Avenue, Vancouver, B.C. V5Z 1M4 (telephone 879-7531), or from the undersigned for the sum of \$10 (cheque or money order made payable to the Minister of Finance), which is not refundable.

A limited number of full-size drawings (stock not replenishable) are also available at an additional fee of \$10 payable to the Minister of Finance and not refundable.

Construction of this contract shall conform to the requirements of the applicable sections of the Department of Highways "General Specifications for Highway Construction." If the bidder does not already have a copy of these specifications, one may be obtained from the Provincial Government Plan Viewing Room, Vancouver, B.C. V5Z 1M4, or from the undersigned for the sum of \$10 (cheque or money order made payable to the Minister of Finance), which is not refundable. All copies purchased are registered and amendments are forwarded when issued.

Each tender must be accompanied by a bid bond or a certified cheque in accordance with clause (a) or clause (b) below:

- (a) Where the total tender price exceeds \$100,000, a surety bid bond in an amount equal to 10 per cent of the tender price must accompany each tender. A performance bond and a labour and material payment bond, each in the amount of 50 per cent of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder upon receipt of notice of acceptance of tender. The surety bid bond shall be forfeited if the tenderer declines to enter into a contract if called upon to do so.
- (b) Where the total tender price is less than \$100,000, a surety bid bond or

a certified cheque in an amount equal to 10 per cent of the tender price must accompany each tender. A performance bond and a labour and material payment bond, each in the amount of 50 per cent of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder upon receipt of notice of acceptance of tender. If a bid bond is supplied this bond shall be forfeited if the tenderer declines to enter into a contract if called upon to do so. In the event that the successful bidder supports his tender with a certified cheque, but fails to produce the required performance bond and labour and material payment bond within a period of 14 days from the date of issuance of notice that his tender is accepted, the Minister of Highways shall have the right to forfeit the tender deposit in its full amount or to the extent of the difference in cost between the bidder's tender and the accepted tender, whichever is the lesser.

Tenders must be made out on the forms supplied and enclosed in the envelope furnished.

The tender submitted is irrevocable for 60 days and may not be altered, amended, or withdrawn for any cause without the written permission of the Minister.

Tenderers are advised that all bidders will be required to satisfy the Minister of Highways, in writing, that they have the necessary qualifications to successfully perform the work. It is preferred that tenderers submit with their tenders a list stating the type, capacity, and present location (so that inspection can be made if necessary) of the equipment in their possession or at their disposal which is immediately available for the carrying-out of the work within the time limit specified without in any way curtailing or delaying any Departmental project that may be under contract at this date.

No tender will be accepted or considered which contains an escalator clause or any other qualifying conditions, and the lowest or any tender will not necessarily be accepted.

It is preferred that tenderers submit with their tenders a schedule of proposed construction operations showing estimated monthly progress for each phase of the construction work.

APPLICATION FOR PERMIT UNDER
POLLUTION CONTROL ACT, 1967
(Effluent)

Preamble—The existing City of Vernon Sewage Treatment Plant produces secondary effluent utilizing the trickling filter process with discharge to Vernon Creek. A large-scale pilot project to evaluate the practicability of disposal on the land by spray irrigation was put into operation four years ago. The results of this pilot project have been very successful and the City of Vernon is now instituting full-scale disposal of its treated effluent on the land.

PERMIT FOR SPRAY IRRIGATION

Facilities to be constructed include the following:

Expanded Trickling Filter Sewage Plant—An addition to the existing treatment plant will be constructed to increase the plant capacity and retire some components of the old plant. The new addition will consist of primary and secondary treatment facilities, including chlorination to fully treat the effluent prior to spray irrigation on forage crops. The expanded plant will be landscaped to complement the structures and provide an aesthetically pleasing installation.

Smoothing Storage Basin—A two-celled smoothing basin will be constructed across Vernon Creek from the treatment plant to receive the effluent treated by the plant. The purpose of these basins is to provide a contact period for chlorination of the treated effluent for disinfection and a storage area for emergency conditions such as power failures and storm flows. These basins will be encompassed by landscaped berms to maintain a pleasing appearance.

Pump Stations—The main pumping station will pump the treated effluent to the irrigation fields on the benches south of Vernon during the growing season. During the winter the water will be pumped to a storage reservoir via a booster pumping station.

Storage Reservoir—An earth fill dam will be constructed in an area to the south of Vernon to provide a reservoir to store the irrigation water during the winter months for later release to the irrigation system.

THIS APPLICATION is to be filed with the Director, Pollution Control Branch, Parliament Buildings, Victoria, B.C. Any person who qualifies as an objector under section 13 (2) of the *Pollution Control Act, 1967* may, within 30 days of the date of application, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or, where service is required, within 30 days of the serving of a copy of

the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected. Those who do not so qualify may file with the Pollution Control Board an objection in writing under section 13 (6), in the same manner and time period as described above.

The Corporation of the City of Vernon, of 3400—30th Street, Vernon, B.C., hereby applies to the Director for a permit to discharge effluent from the City of Vernon Trickling Filter Plant located at Vernon onto approximately 2,000 acres of lands located southeast of the urban part of Vernon, and gives notice of application to all persons affected.

The discharge shall be by way of spray irrigation upon lands shown shaded on the drawing and described on the appended property description.

The quantity of effluent to be discharged is as follows: Average annual daily discharge (based on operating period), 3,000,000 (treatment plant discharge) imperial gallons. Maximum daily discharge, 10,000,000 (irrigation rate on land) imperial gallons.
